

Soil Pipe Cutters

The fastest way to cut cast iron soil pipe, clay pipe, and small diameter concrete pipe is with a chain pipe cutter. Great for gray water applications! Reed has improved the original manufacturer's design by providing stronger jaws and more durable adjusting screws which are interchangeable with the original tools. Reed soil pipe cutters are available in a single stroke model (SC59) and a ratcheting (SC49) model for close quarter work. Multiple use 1/2" ratchet wrench ships with SC49 models. No-Hub® Roller Kit is now standard on all models.
