

# SI220 SMART INTERRUPTER

**Solid-state  
Current Interrupter  
for today's CP  
systems**

## **High voltage and current capability**

For today's CP systems;  
longer pipes in difficult  
conditions

## **Synchronize multiple units**

Enables evaluation of  
complex CP networks

## **Ease to use**

Simple menu operation &  
powerful control features

## **Advanced safety features**

Transient & overload  
protected, cool running  
even at elevated  
temperature
